About Andromeda Metals

Andromeda Metals Limited is an emerging industrial minerals company listed on the Australian Securities Exchange with a vision of becoming the world's leading supplier of high-grade halloysite-kaolin. The Company's current focus is directed towards bringing the Carey's Well halloysite-kaolin deposit located at Poochera on the Eyre Peninsula of South Australia into production in order to generate immediate cash flows to grow the business and reward shareholders through the payment of dividends.

The Company has recently completed a upgraded Scoping Study which showed the Project to be a technically sound and financially robust venture and is currently completing a Pre-Feasibility Study which is scheduled for release during May 2020.
